Re: H.B. 757

Dear Representative Dutton:

The Professional Certification Coalition (PCC) writes regarding H.B. 757. We appreciate that this bill aims to advance the important goal of expanding opportunities for those charged with crimes. We respectfully request consideration of amendments to ensure protections for the public and certification organizations that rely on licensure decisions.

The PCC is a nonprofit association formed to address legislation that affects professional certification programs, those who hold private certification credentials, and the many constituencies that rely on professional certification. The PCC's organizational members include non-governmental professional certification organizations, professional societies, and service providers. The PCC's members reflect a wide spectrum of professions, including health care, engineering, financial services, and information technology, among many others. Our founding organizations – the American Society of Association Executives (the leading organization for association management) and the Institute for Credentialing Excellence (the leading developer of accreditation standards for professional certification programs) – govern the PCC.

The PCC supports the goal of H.B. 757 to broaden access to licensure for those charged with crimes so they may earn a living in their chosen profession. We agree that simply having a criminal record should not stigmatize or automatically disqualify an individual from an occupational license. It is critical, however, that licensure boards have the ability to consider the underlying facts relating to an applicant's past conduct so they may make independent, individual determinations about that applicant's fitness to practice the profession with the state's endorsement.

Not all professions are the same, nor are all criminal records. Members of the public view licensure as the state's recognition that the licensed individual is qualified to perform the profession safely and competently, without harming public safety, health, or welfare. The PCC proposes certain amendments to H.B. 757 to bolster that protection for the public:

- Add a new section (c-3) **“An offense is ‘sufficiently related’ to the activity or conduct for which the person seeks or holds the license if the circumstances of the offense and the nature of the occupation would create an unreasonable risk to public health, safety or welfare for an ex-offender to practice the licensed profession.”**

- Add to Article 42A.111(c-2)(2) “or,” after subsection B, and add a new subsection (C): **“one that relates to conduct that poses an unacceptable risk to the people with whom the applicant would interact in the conduct of the profession or occupation.”**
- Add a safe harbor provision: **“Nothing in this section shall be construed to require a private certification organization to grant or deny private certification to any individual, nor alter or impair any requirement in a licensure statute or regulation for an individual to hold current private certification as a condition of licensure or renewal of licensure.”**

The PCC applauds Texas for advancing important criminal justice reforms through the H.B. 757. We respectfully request, however, that the legislature amend H.B. 757 as we have requested above to better protect the public.

Thank you for your consideration of these amendments. If you have any questions regarding this letter, please feel free to reach out to us using the contact information identified below.

Sincerely,

Mary Kate Cunningham
