Re: H.B. 3454

Dear Representative White:

The Professional Certification Coalition (PCC) writes regarding H.B. 3454. We appreciate that this bill aims to advance the important goal of expanding opportunities for those charged with crimes. We respectfully request consideration of amendments to ensure protections for the public and certification organizations that rely on licensure decisions.

The PCC is a nonprofit association formed to address legislation that affects professional certification programs, those who hold private certification credentials, and the many constituencies that rely on professional certification. The PCC's organizational members include non-governmental professional certification organizations, professional societies, and service providers. The PCC's members reflect a wide spectrum of professions, including health care, engineering, financial services, and information technology, among many others. Our founding organizations – the American Society of Association Executives (the leading organization for association management) and the Institute for Credentialing Excellence (the leading developer of accreditation standards for professional certification programs) – govern the PCC.

The PCC supports the goal of H.B. 3454 to broaden access to licensure for those convicted of crimes so they may earn a living in their chosen profession. We agree that simply having a criminal record should not stigmatize or automatically disqualify an individual from an occupational license. It is critical, however, that licensure boards consider the underlying facts of an applicant's past conduct and make independent, individual determinations about that applicant's fitness to practice the profession with the state's endorsement.

Not all professions are the same, nor are all criminal records. Members of the public view licensure as the state's recognition that the licensed individual is qualified to perform the profession safely and competently, without harming public safety, health, or welfare. Convictions for nonviolent and/or nonsexual offenses may still indicate that an individual is not fit to be licensed for a specific profession. For example, depending on the circumstances, licensing authorities may appropriately deny a license to practice medicine to an individual convicted of misusing prescription authority to deal drugs; a licensing agency may likewise appropriately deny a license to a real estate broker convicted of engaging in fraudulent real estate practices.

The PCC therefore proposes certain amendments to H.B. 3454 to bolster protections for the public:

- Amend Section 53.027(b) to read: “Notwithstanding any other law, an applicant may not be denied a license to which this section applies based solely on the applicant having been convicted of a nonviolent, nonsexual offense, **unless the offense was directly related to the duties and responsibilities of the licensed occupation or profession, if the circumstances of the offense and the nature of the occupation would create an unreasonable risk to public safety, health, or welfare for the applicant to practice the licensed occupation or profession, or the applicant poses an unacceptable risk to the people with whom the applicant would interact in the conduct of the licensed occupation or profession.**”
- Add a new provision: “**Nothing in this chapter shall be construed to require a private certification organization to grant or deny private certification to any individual, nor shall it impair the right of private certification organizations to establish and enforce eligibility criteria, ethics codes, or disciplinary policies. In addition, nothing in this chapter shall be construed to alter any requirement in a licensure statute or regulation for an individual to hold current private certification as a condition of licensure or renewal of licensure.**”

Thank you for your consideration of these amendments. If you have any questions regarding this letter, please feel free to reach out to us using the contact information identified below.

Sincerely,

Mary Kate Cunningham
