Re: HB 1676

Dear Rep. McGuire and Rep. Simon:

The Professional Certification Coalition (PCC)¹ writes regarding HB 1676, to address our concerns that it could weaken important occupational regulations that protect public health, safety, and welfare.

The PCC supports a careful review of licensing laws to ensure that unnecessary obstacles are removed. However, in its current form, HB 1676's repeal provisions would abolish occupational licensing boards without first considering whether eliminating a particular state licensing agency is in the public interest. Licensing boards that have been duly established by the legislature and on which the public relies should not be abolished without the legislature engaging in its important oversight role.

Abolishing licensing boards would shift their enforcement functions on to private certification programs – which lack the legal authority and resources to serve as a substitute. Further, many licenses require that an applicant or licensee obtain or maintain private certification as a condition of licensing. In this case, abolishing the board would abolish two layers of protection for public health, safety, and welfare.

Our concern is not hypothetical: in 2019, the Texas legislative session expired before bills to extend the Texas State Board of Plumbing Examiners were passed, resulting in automatic sunset provisions taking effect, thereby abolishing the Board and all licensing laws governing installers of plumbing, gas, and medical gas systems. To reinstate vital protections for the safety of

¹ The PCC is a nonprofit, nonpartisan association formed to address legislation that affects professional certification programs, those who hold private certification credentials, and the many constituencies that rely on professional certification. The PCC's organizational members include non-governmental professional certification organizations, professional societies, and service providers. The PCC's members reflect a wide spectrum of professions, including health care, engineering, financial services, and information technology, among many others. Our founding organizations – the American Society of Association Executives (the leading organization for association management) and the Institute for Credentialing Excellence (the leading developer of accreditation standards for professional certification programs) – govern the PCC.

homeowners and Texas residents, the governor was forced to take executive action to extend the Board's activity past its automatically scheduled expiration date.

To preserve substantive qualification requirements in licensing laws, the PCC proposes the amendments in **Appendix A**.

The PCC stands ready to work with you to craft legislation that strikes a reasonable balance between the benefits of occupational licensing and the desire for free markets in employment. Unfortunately, in its current form, this legislation goes too far by removing vital protections for the public.

Thank you for your consideration of these issues. Please feel free to reach out to us using the contact information identified below.

Sincerely,

Craig Saperstein

APPENDIX A

- **Strike the automatic Sunset Provisions, or in the alternative add a new section: “Notwithstanding any other provision in this Act, no statutory chapter authorizing an occupational licensing board shall be repealed if the Legislature does not complete a systemic review of the occupational licensing program prior to the scheduled repeal date in this Act; in such cases, the scheduled repeal date shall be postponed to July 1st of the following calendar year.”**
- **Add a new Section: “Nothing in this section is intended to restrict a board or commission from requiring, as a condition of licensure or renewal of licensure, that an individual’s personal qualifications include obtaining or maintaining private certification from a private organization that credentials individuals in the relevant occupation.”**
- **Add a safe harbor provision: “Nothing in this section shall be construed to require a private certification organization to grant or deny private certification to any individual.”**
- **Add another safe harbor provision: “Notwithstanding any other provision in this Act, no statutory chapter authorizing an occupational licensing board shall be automatically repealed due to a scheduled sunset date if the occupational board or commission authorized in that chapter has adopted licensure requirements for any occupation for which the licensure requirements are based on uniform national laws, practices, and/or examinations that have been adopted by at least two-thirds of states and territories in the United States.”**
